SB Electronics is honored to host Vermont Governor, James Douglas' re-election candidacy announcement

June 29, 2004 - For Immediate Release

Barre, Vermont: SBE, Inc (d/b/a SB Electronics) was honored today by being selected as the company hosting Vermont Governor, James Douglas' re-election candidacy announcement. Hundreds of supporters looked on as Governor Douglas announced his formal entry into the 2004 Vermont Gubernatorial race on the front steps of SBE's facility in Barre. Prior to the announcement, the Governor, and representatives of the media, were given a tour of the SBE manufacturing facility and had an opportunity to talk to many employees of the company.

SBE was chosen because it represents one of the many small businesses that have benefited in recent years from a close partnership with the State of Vermont. This partnership, along with a recovering global economy and sound business strategy, has resulted in the return of job growth in some manufacturing sectors. SBE has increased from 30 full-time employees in 2002 to over 45 full-time employees today and the outlook is promising for continued job growth in the future.

SBE Inc. designs and manufactures Capacitors and Capacitor Assemblies for the Electrical and Electronics Industries from its facilities in Barre, Vermont. Originally a Sprague Electric Plant, SBE has been a leader in the Film Capacitor market for over 50 years producing over a Billion Capacitors over the years. The company continues to produce many of its industry leading standard Orange Drop® products while developing exciting new technology in the field of High Energy, Pulse, and High Voltage Capacitors.
